Own A Purpose-Driven Pet Business

Fresh Food, Recurring Revenue, Community Trust

Pet Wants is a franchise opportunity for passionate pet lovers who want to build a meaningful, scalable business while improving the health and longevity of pets in their community. Pet parents are more focused than ever on what goes into their pets' bowls. They want healthier food, trusted guidance, and convenient delivery; and they're willing to pay for it. Pet Wants meets that demand with a simple, proven business model centered around fresh nutrition and lasting relationships.

Story Of Pet Wants

Pet Wants was created after a beloved pet suffered serious health issues that ultimately traced back to nutrition. That experience sparked a simple mission.
Pets deserve better food.
Pet parents are demanding it.

Pet Wants was built on a relationship-driven model centered around trust, education, and ongoing guidance. We deliver fresh, small-batch pet food alongside a consultative, education-first approach that empowers pet owners and strengthens lifelong bonds between pets and their families—one community at a time.
